

The Gantt chart illustrates the project timeline from January 4, 2026, to March 15, 2026. The tasks are categorized into three types: planning (blue), execution (red), and review (grey). Milestones are indicated by diamonds and labeled with their respective dates.

- Planning Phase:** Starts on 1/1 with a blue bar representing planning. This is followed by several red bars representing execution phases, each ending at a milestone labeled 1/7, 1/10, and 1/15. A long blue bar representing planning spans from 1/15 to 2/5.
- Execution Phase:** A large red bar representing execution begins on 2/5 and ends at a milestone labeled 2/14. Following this, there is a short blue bar representing planning, which leads to a red bar representing execution that ends at a milestone labeled 2/18. This is followed by another short red bar representing execution, which ends at a final milestone labeled 2/19.
- Review Phase:** There are several grey bars representing review scattered throughout the timeline, primarily between the execution phases.
